

Peace Work for War Workers

Shall the mighty machinery of power which won the war be "scrapped?" How can the millions of soldiers, millions of women, great factories, vast capital, compelling energy mobilized for war, be employed to conquer the problems of peace?

How shall our industries be readjusted? How shall our man-power and woman-power be distributed? How shall business meet the new conditions? How shall war taxes be revised? How shall the great fleet of ships be owned and profitably engaged in developing America's foreign trade? What new fields for investment will be opened in Europe?

"PERFUMED YEGG" FATALLY WOUNDED

CHICAGO, Dec. 18.—A man known as "the perfumed burglar" is believed to be dying in a North Side hospital today as the result of a bullet through the lungs fired by a pursuing policeman. Numerous burglaries on the North Side in recent months have caused the police to be on the lookout for someone bearing the scent of violet perfume. Portions of paper left after wrapping up loot, or a dropped handkerchief have yielded but one clue—violet perfume. An influenza patient in a first-floor apartment last night heard some person in the one above when she knew the occupants were away, and telephoned the police. A wagonload arrived, some guarding the front, others the back of the building and others going upstairs. As the officers entered a man leaped across a six-foot shaft to another apartment, frightening two women into hysterics and leaving a trace of violet perfume behind him as he fled to the street. A policeman sent a bullet into the fugitive's back. Search of his clothing revealed many pieces of jewelry and the odor of violet perfume.

Tonight! Take Dodson's Liver Tone! Better Than Calomel For Liver

Calomel sickens! If bilious, constipated and head-
achy—read my guarantee.

Listen to me! Take no more sickening, salivating calomel when bilious or constipated. Don't lose a day's work! Calomel is mercury or quicksilver, which causes necrosis of the bones. Calomel, when it comes into contact with your bile, crashes into it, breaking it up. This is when you feel that awful nausea and cramping. If you are sluggish and "all knocked out," if your liver is torpid and bowels constipated, or you have headache, dizziness, coated tongue, if breath is bad or stomach sour, just take a spoonful of harmless Dodson's Liver Tone.

Here's my guarantee—Go to any drug store and get a bottle of Dodson's Liver Tone for a few cents. Take a spoonful

tonight, and if it doesn't straighten you right up and make you feel fine and vigorous by morning, I want you to go back to the store and get your money. Dodson's Liver Tone is destroying the sale of calomel because it is real liver medicine; entirely vegetable, therefore it can not salivate or make you sick. I guarantee that one spoonful of Dodson's Liver Tone will put your sluggish liver to work and clean your bowels of that sour bile and constipated waste which is clogging your system and making you feel miserable. I guarantee that a bottle of Dodson's Liver Tone will keep your entire family feeling fine for months. Give it to your children. It is harmless, doesn't gripe and they like its pleasant taste.

As a Matter of Fairness—

Our employees are human. The majority are men of families.

We believe they are entitled to one day of rest with their families each week.

If we keep our salesrooms and service stations open on Sunday we are not treating them fairly.

We ask the co-operation of the public in this matter.

Help us to treat our workers "on the square."

AMERICANS TELL OF HUN CRIMES AGAINST CAPTIVES

BERNE, Dec. 18.—Lieut. James Duke, of Washington; Lieut. Cassius Styles, of Villabona, N. Y., and Lieut. Robert Raymond, of Newton Center, Mass., have arrived in Switzerland from a German prison camp on their way to France. These officers are attached to the American aviation service. Lieut. Styles told the Red Cross that his pilot, Lieut. Walter Morris, had been killed. Although dying and unable to move, Morris said to him: "You there, Styles? I was my fault that we smashed. Hope you are not hurt. Good-bye."

The Americans informed the Red Cross that the Russians at Rastatt, Germany, were dying at the rate of about six or eight daily from starvation. The Americans were given rifles by the German guards to protect food supplies from the Russians, who threatened to raid the American compound, they said. The American cemetery at Rastatt now has nine graves. The German guards left the gates of the camp open for the Americans to escape, but an American sergeant posted guards around the compound and compelled the prisoners to await the arrival of the Red Cross and American sanitary trains from Switzerland. Herbert Jones, of the 110th Infantry, declared to the Red Cross that a German sergeant-major at Langensalz camp struck American prisoners on the face with the flat of his sword without reason after lining them up for roll call. Jones himself was kicked by a guard until the lower part of his body was temporarily paralyzed. Langensalz is the German prison camp where a considerable number of French prisoners were killed or wounded by guards several days after the signing of the armistice.

FOUR BADLY BURNED UPON U. S. TRANSPORT

PHILADELPHIA, Dec. 18.—J. J. Lafferty, a civilian machinist, and three enlisted men of the navy were severely burned by a steam engine room of the United States transport Bath at the Philadelphia navy yard. Of the injured, Frank P. Lafferty, Pittsburgh, a fireman, was the most seriously hurt. His condition is said to be critical. The accident, naval authorities said, was caused by one of the men throwing a bucket of oily water into the ashpit. Damage to the ship was trifling.

FIND BODY OF WOMAN WHO ENDED HER LIFE

NEW YORK, Dec. 18.—The body of Miss Dominica Arias, a Filipino government student at Columbia university, was found in the Hudson river here shortly after she had left a note in her room saying she intended taking her life because she had written a falsehood to the superintendent of the American hospital in Manila, under whom she had formerly studied. The young woman had for several months been studying at Columbia to become a nurse.
